# Save Money—Make Money

## Buy Your Fruit Plants and Trees At

# Wholesale Prices

---

---

If you expect to plant Fruit Plants, Fruit Trees or Ornamental Stock this Spring, here is your opportunity to secure the finest stock that can be grown at wholesale prices, which will mean a saving of 50 per cent or more.

### Quality Stock—Direct to Planters—Lowest Cost

Our nurseries are located in the very heart of Michigan's Great Fruit Belt—BERRIEN COUNTY—where soil and climatic conditions are ideal for producing hardy, vigorous, well rooted, productive fruit plants and fruit trees.

We number among our regular satisfied customers many of the largest nurseries and fruit associations in the United States. This is ample proof of the quality of our stock, because that class of buyers demands the very best stock that can be grown.

### Our Money-Back Guarantee

The Consumers Wholesale Nursery, of St. Joseph, Michigan, guarantees each and every customer absolute satisfaction. As the stock sold by us is produced on our own farms, we can safely guarantee every plant, tree, shrub or vine to be strictly first class in every particular, true to name and free from disease.

Due to our careful methods of growing, handling and packing for shipment, we can and do guarantee every plant, tree, shrub or vine to reach the purchaser alive and in a perfect growing condition.

In no case will we be liable for more than the original purchase price, should we be unable to make delivery, due to causes beyond our control, such as shortage of stock, strikes or an act of Nature.

### All Stock Freshly Dug

Stock ordered from us will be fresh dug, as it is grown on our own farms and dug from day to day as needed. Many of our plants are sold to nurserymen, who demand the very best. We cannot afford to send out storage stock.

### Carefully Packed

Our packing is done by men of long experience. Plenty of damp moss is used to keep the plants fresh and vigorous. We can safely guarantee our stock to reach you fresh and vigorous.

### Shipped Promptly

Our stock is all grown on high, well drained soil, we can ship early and are not delayed by wet weather. A large force of experienced help, a big, up-to-date packing house, trucks, etc., enables us to move stock rapidly. Shipping facilities are of the best, as we are only eighty miles by rail from Chicago, where quick transfer is made to any station.

### Our References

If in doubt as to our honesty or reliability we refer you to E. H. Gast, Postmaster, Union Banking Co., or Commercial National Bank, St. Joseph, Michigan.

### Certificate of Inspection

Michigan grown nursery stock is noted the country over as the healthiest stock produced. Our stock is inspected twice each season by the Michigan Department of Agriculture, and a Certificate of Inspection accompanies each shipment.

# Hardy Northern Grown Fruit Trees at Wholesale Prices

Duchess Apples.

Wealthy Apple.

Bartlett Pear.

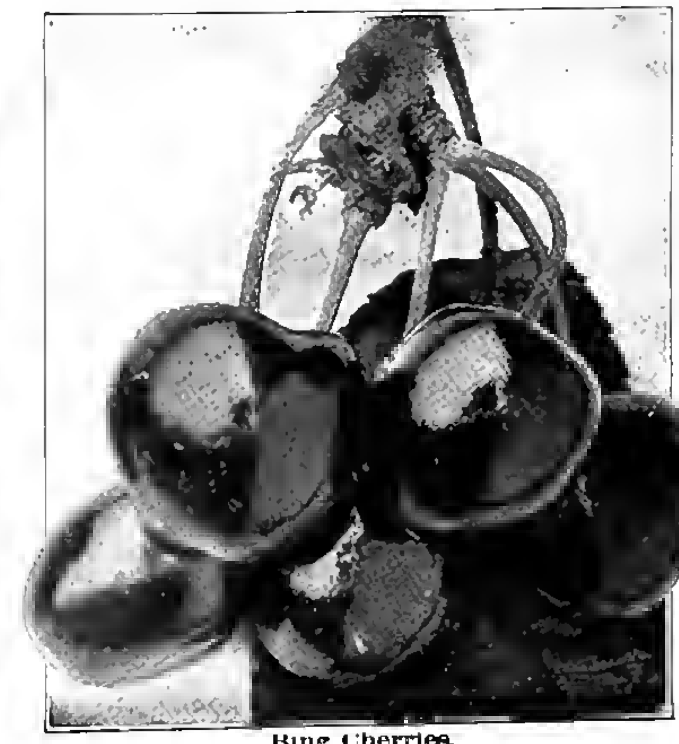

Abundance Plums.

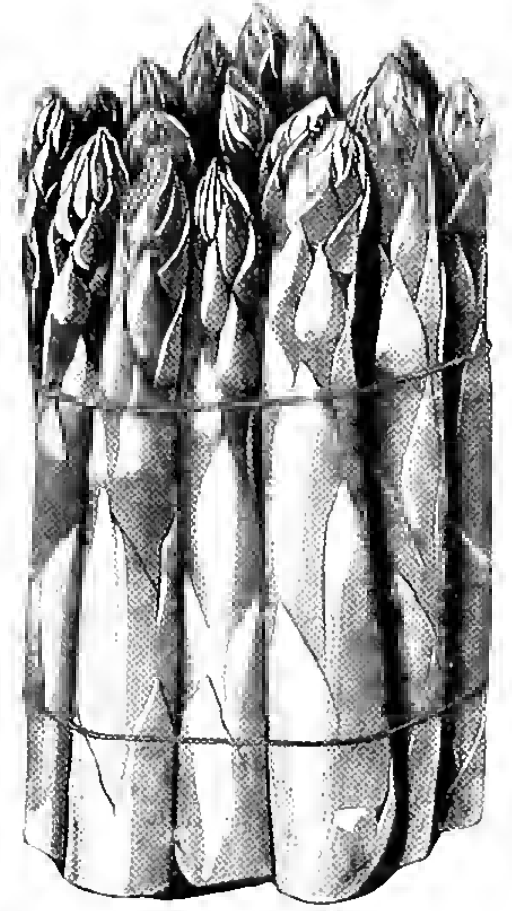

Northern Spy Apple.

Montmorency Cherries.

Bing Cherries.

Washington Asparagus.

Every home should have a continuous supply of fruit. Don't pass up this opportunity to plant hardy, northern grown, dependable, productive trees. Our wholesale prices make it possible for you to make your planting at a very low cost.

**Important** When planting fruit trees plant two or three varieties. Many varieties of tree fruits are partly sterile, and will not produce crops of perfect fruit unless planted with other varieties which insures proper pollination of the blossoms.

## Apple Trees 40c Each

Price of Apple Trees.	Each	10	100
3 to 4 ft. trees	\$.032	\$2.85	\$25.50
